PROFILE

MSc Artificial Intelligence & Data Science student with a background in Computer Science and practical interest in data analytics, artificial intelligence, generative AI and machine learning. Experienced in building data-focused projects using Python, SQL, statistical analysis and visualization, with a strong interest in learning through hands-on work and collaborative projects.

EDUCATION

Degree	Institution	Period / Result
MSc Artificial Intelligence & Data Science	Indira University	2026–2028 expected
B.Sc. Computer Science	Christ College, Pune	2023–2026 · CGPA 9.27/10
B.Sc. affiliation: Savitribai Phule Pune University. MSc currently pursuing.		

TECHNICAL SKILLS

Artificial Intelligence · Data & Analytics · Python · SQL · Generative AI · Machine Learning · Data Visualization · Power BI · Research

PROJECT

CityPulse — Urban Mobility Intelligence

LIVE / DATA SCIENCE · 2026

End-to-end urban traffic analytics project using Python, SQL, statistical analysis and interactive visualization to investigate congestion patterns, rush hours, anomalies and junction-level traffic behaviour.

Technologies: Python · Pandas · SQL · Statistics · Plotly · Streamlit

EXPERIENCE & LEADERSHIP

Organising Head — Science Association

Led and coordinated the organising team for a college Science Association, developing experience in team management, communication, leadership and event coordination.

Three-Month College Project Experience

Worked with a team on a college project that resulted in formal three-month internship recognition from the college.

SOFT SKILLS

Team Management · Communication · Leadership · Collaboration · Organisation · Problem Solving · Adaptability · Learning Mindset

CERTIFICATIONS & TRAINING

- **AI–Machine Learning Engineer Foundation Course** — Reliance Foundation Skilling Academy / Skill India Digital · 120 hours
- **Getting Started with Generative AI** — IBM SkillsBuild · September 2026
- **Create Image Captioning Models** — Completed · September 2026
- **Power BI for Beginners** — Completed · September 2026
- **Research Methodology for Computer Science** — Christ College, Pune · 30 hours
- **Red Hat Application Development I: Java EE** — Red Hat · 32 credit hours · January 2026
- **Business Email** — HP LIFE · September 2026
- **Graphic Design Essentials** — Training · September 2026 · 45-minute training
- **Meet Canva's Visual Suite** — Training · September 2026 · 1-hour training

ADDITIONAL TRAINING

C Programming & Code Reading Internship — Evolvability Tech Pvt. Ltd. · 40 hours · 2024

CURRENT INTERESTS

Artificial Intelligence · Data Science · Generative AI · Machine Learning · Data Visualization · Building useful practical projects
